Anas Rizvi

Profile

I'm a Senior Technical Lead specializing in AI technologies, with a passion for creating intelligent systems that solve complex problems. My expertise spans the full AI development lifecycle—from conceptualization and architecture to deployment and scaling of production-ready solutions.

Work Experience

2025/03 – present
Remote

Senior Technical Lead - AI Solutions
Ligaments.ai ⬀

2023/09 – 2025/03
Hyderabad, India

Senior Software Engineer
Prodapt Solutions ⬀

- Led Generative AI projects and automated workflows with AI strategies to enhance operational efficiency.
- Directed cross-functional teams in developing innovative web applications using ReactJS, AngularJS, and NodeJS, ensuring timely, high-quality deliveries.
- Managed complex databases and API integrations, employing Java Microservices and .Net frameworks for scalable and resilient applications.
- Implemented CI/CD practices, ensuring built-in quality with 100% unit testing and minimized code debt through consistent refactoring.
- Provided on-call support and actively participated in resolving production issues within SLAs.

2021/04 – 2023/08
Chennai, India

Software Engineer
Prodapt Solutions ⬀

- Developed web applications using full-stack skills with technologies like ReactJS, AngularJS, NodeJS, and Python.
- Delivered a Copper to Migration dashboard using Java Microservices, showcasing strong project management abilities.
- Contributed to blockchain-based projects and financial ledger applications.
- Developed multiple dashboards with Qlik Sense technology.

2019/09 – 2021/03
Chennai, India

Assosiate Software Engineer
Prodapt Solutions ⬀

- Collaborated with cross-functional teams, including business stakeholders and product managers, to define and achieve project goals and deliverables.
- Performed data cleaning and preprocessing using Python libraries.
- Worked closely with the DevOps team to implement CI/CD practices, reducing software release times by 50%.

2017/04 – 2018/08
New Delhi

Intern
Hostmud - Cloud Based Product Development Company ⬀

- *Supported Software Engineers in Application Development. Created and tested wireframes and prototypes.*

Education

Greater Noida, India

Bachelor of Engineering in Computer Science
Dr. A. P. J. Abdul Kalam Technical University, Lucknow

Skills

Web Devlopment ● ● ● ● ○
ReactJS, AngularJS, NodeJS, JavaScript, HTML/CSS, RESTful APIs, Git/GitHub, Agile/Scrum methodologies

Backend Developer ● ● ● ● ●
Python (Flask, Django, FastAPI), Java (Microservices, Hibernate, Spring), .Net

Cloud ● ● ● ● ○
Azure(Microsoft Azure Fundamentals Certified), Google Cloud

Productivity Software ● ● ● ● ○
Microsoft Office, Google Apps for business, X Mind, Notion

Data Analysis & Cloud ● ● ● ○ ○
Data Analysis, Data Wrangling, Data Visualisation (Qlik Sense), Airflow, Azure/Google Cloud

Blockchain ● ● ● ○ ○
Certified Blockchain Developer by Block Chain Council

Soft Skills ● ● ● ● ●
Resilience & focus acquired through working on multiple projects at the same time.

Generative AI Tools & Models ● ● ● ○ ○
Skilled in developing and working with generative AI-based tools and models.

Certificates

- Oracle Cloud Infrastructure 2024 Generative AI Certified Professional ⌕
- Spring & Hibernate ⌕
- Neo4J Certified Professional ⌕
- Generative AI in Cloud Computing: Core Concepts ⌕
- Foundary Foundations ⌕
- Welcome to Service Now - Micro Certification

- Python ⌕
- Azure Fundamentals ⌕
- Blockchain Certified Developer ⌕
- Palantir Foundary Application Developer ⌕
- Creativity, problem solving and generating alternatives ⌕
- Flow Designer - Micro Certification
